

Automatic L-Bar Sealers

Sevana's PLC-controlled automatic L-bar sealer uses HMI control and dual sensors for precise POF film wrapping. Jam detection, finger protection and pneumatic sealing support continuous production with compatible shrink tunnels.

Technical Data	QS5540LAB
Machine dimensions (LxWxH) (mm)	1720x1140x1550 (+50*)
Conveyor belt top height (mm)	800+50
Maximum seal dimensions (LxW) (mm)	550 x 400
Conveyor speed (m/min), in/out feed	15
Conveyor bridging	Yes
Sealing temperature (°C)	50-300
Voltage/Frequency (V/Hz)	240/50
Power (W)	1800
Air supply (kg/cm ²)	6-8
Sealing time (s)	0-2
Suitable film	POF

* Adjustable height
