Sleeve Wrappers/ Web Sealers

Sleeve wrapping machine is used for wrapping shrink film around products. Bottles, cartons, and boxes can be handled by this machine one at time or in groups. The speed of the machines is up to 8 packs per minute. The machine features pneumatic product pushing, product holding, sealing and cutting, digital temperature controller and emergency stop button.

Technical Data	QW6540SW
Machine Dimensions (LxWxH) (mm)	1070x1180x1930
Maximum Package Size ([L+H]xW)(mm)	600x300
Maximum Product Height (mm)	350
Sealing Length (mm)	650
In-feed Table Height (mm)	790
Maximum Production (Pcs/min)	8
Weight (kg)	300
Voltage (V/Hz)	240/50
Power (W)	1500
Compressed air (kg/cm2)	6-8 `
