

Pneumatic Sealer

Pneumatic sealers are ideal for sealing retort pouches. These machines have 10 mm sealing width. Pneumatically actuated scissor type sealing jaw maximizes sealing pressure. Machine requires running water for cooling.

Technical Data	QS300x10 PNI
Seal Length (mm)	300
Seal Width (mm)	10
Machine Dimensions (LxWxH) (mm)	660x710x1250 (+40)
Voltage/Frequency (V/Hz)	240/50
Power (W)	1600
Compressed Air Pressure (kg/cm2)	6 to 8
Number of Preset Programs	4
Weight (kg)	61
