

Automatic Side Sealers

Automatic side-sealers are high speed machines for wrapping using polyolefin films. The speed of the system is up to 30 packs per minute, depending on the product size and film. The machine is fully automatic, and an operator is only required for loading products, monitoring and film changing.

Technical Data	QS5545SSB
Machine Dimensions (LxWxH) (mm)	1720x1060x1510(+50)
Working Height (mm)	865+50
Cross Seal Bar Length (mm)	550
Conveyor Speed (m/min)	22
Packing Speed (packs/minute) (maximum)	20-30
Sealing System	Hot bar
Voltage/ Frequency (V/Hz)	240/50
Power (W)	2000
Air Supply (kg/cm2)	06-08
Suitable Film	Polyolefin
Machine Weight (kg)	250
