SEVANA

Economical Shrink Tunnels

Sevana's QS 4020iSTV is a cost-effective shrink tunnel with various features. PE, PVC, POF and pp shrink films can be used with this machine. This model is suitable for medium production requirements. These shrink tunnels can be used in combination with L-sealers or other wrapping equipment. Shrink wrapping protects your product against scratches, dust and pilferage. Bundle your product or give it some extra gloss with a strong, tight, tamper-evident overwrap.
